ENTERPRISE PROJECT MANAGEMENT OVERVIEW

A recent industry study shows that less than 15% of enterprises measure the business results of their project efforts. This leads to wastage of company resources as projects become unproductive.

Enterprise project management (EPM) software offers organizations the features required to effectively manage all their projects at an enterprise grade. With this platform, companies can view projects strategically, permit executives to delegate resources to priority projects, and determine how various projects fit into their organizational objectives. The system empowers enterprises to streamline all related projects to facilitate maximum effectiveness. Leading EPM tools provide a range of modules including project portfolio management (PPM), file sharing, calendars, internal messaging, and more, which contribute to a company’s strategic business objectives.
The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings. The overall Customer Success ranking is a weighted average based on 3 parts:

**Content Score** is affected by:
1. Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
2. Customer reference rating score
3. Year-over-year change in amount of customer references on FeaturedCustomers platform
4. Total # of profile views on FeaturedCustomers platform
5. Total # of customer reference views on FeaturedCustomers platform

**Market Presence Score** is affected by:
1. Social media followers including LinkedIn, Twitter, & Facebook
2. Vendor momentum based on web traffic and search trends
3. Organic SEO key term rankings
4. Company presence including # of press mentions

**Company Score** is affected by:
1. Total # of employees (based on social media and public resources)
2. Year-over-year change in # of employees over past 12 months
3. Glassdoor ranking
4. Venture capital raised

### Customer Success Report Award Levels

#### Market Leader
Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

#### Top Performer
Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

#### Rising Star
Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT AIRTABLE

Airtable was founded on the belief that software shouldn't dictate how you work—you should dictate how it works. Their mission is to democratize software creation by enabling anyone to build the tools that meet their needs. Creators and creatives around the world use Airtable to do everything from cattle tracking to filmmaking, and they have great things to say.

"It's allowed us to get a much more specific snapshot of our teams, enabling us to staff people to the right projects and giving them great opportunities to grow."
Marissa Grey
Recruitment Director, Huge

"What I love about Airtable is I can track all of our 30 to 60 projects we’re working on at any given time in one place—and within each project, I can monitor every step in the process."
Rachael Profiloski
Director of Development, Lucky8

“The value of Airtable is that it allows you to jumpstart the process of building software. You can essentially create whatever enterprise software you want. It makes it easier for everyone to be a programmer.”
Jonathan Kennell
Vice President of Product Management, Yext

"At Medium we were able to transition our product planning to Airtable in one day - we use it for all major projects and were able to create the exact workflow and visibility we needed across the team.”
Chris Fry
Head of Engineering, Medium
ABOUT ASANA

Asana is the easiest way for teams to track their work. From tasks and projects to conversations and dashboards, Asana enables teams to move work from start to finish and get results. Asana was started after Dustin Moskovitz and Justin Rosenstein built an internal tool at Facebook, which quickly changed how the company coordinates. They realized this technology could help every organization achieve their goals. Now, Asana is a team of over 100 peers across 3 offices in SF, NYC, and Dublin, with investors including Benchmark Capital, Andreessen Horowitz, Founders Fund, and Peter Thiel.

“Anyone can look at an Asana project and immediately understand what’s going on. I can hire someone new, give them a login to Asana, and say ‘These are the teams you should join,’ and I don’t need to train them on how to use it. That’s powerful.”

Jaime Wilson
Senior Director of User Experience Design & Product, Overstock

“Asana is the glue that connects our 3 production offices in San Francisco, London, and Sydney. It gives our content operation a transparency that’s impossible with email, enabling sales, marketing, PR, and finance a vital window into our schedule and workflow. Since adopting it we’ve been able to dispense with several expensively maintained in-house…

Chris Beaumont
Creative Director, CBS Interactive

“We decided to give Asana a try. We were quickly able to eliminate the drudgery of sending update emails and reporting on progress in weekly meetings. Now, if I want to know what’s going on with a project or what the status of anything is, I just look at Asana and everything is instantly clear. Asana makes our process so much more efficient. It removes all the…

Rian Hunter
Software Engineer, Dropbox

“Using Asana, we can easily collect product feedback and bugs from everyone in the company, then parse, discuss, distribute and prioritize the work. Asana has became an indispensable group communication tool.”

Noah Weiss
VP Product Management, Foursquare

ABOUT BRIGHTWORK

BrightWork is the most flexible project management solution with best-practice templates and portfolio management dashboards on SharePoint. BrightWork guarantees greater simplicity for project managers, immediate visibility and control for senior executives, and a path to continuous project management improvement and greater success.

“Using the BrightWork templates, we now have a much better understanding of all projects underway, as well as a system to review and manage new project requests. We have greater visibility into what is on track and what is falling behind.”

John Dunphy
Head of SharePoint Team, Siemens Healthcare Diagnostics

“We selected BrightWork as our internal PPM solution on the basis of its ease of use, availability in the cloud through a reliable hosting service, and the ability to tailor and evolve project templates as our own processes mature.”

Adam Cherril
President, Cherrill Consulting

“BrightWork does a great job of relying on the SharePoint architecture from a data roll-up point of view. The ability to present relevant data to a targeted audience helps provide useful and relevant data to project stakeholders.”

Jason Purviance
Senior IT Project Manager, UnitedLex

“For Mater, the BrightWork solution offers a practical piece of efficiency that reduces demand on resources and addresses some of the multiple reporting concerns identified by project managers.”

Chris Lawler
Manager, Project Portfolio Office, Mater Health Services
Celoxis is an award-winning all-in-one project management software tool backed by over 17 years of company experience. It comes packed with good-to-great features not just for small and mid-sized businesses, but also for large enterprises. Celoxis is India’s first SaaS company and has the best team adoption in the marketplace. The tool has been the platform of choice for brands like HBO, Bombardier, KPMG, Tesla, Adobe, University of Washington and The World Bank. Celoxis is one of the first and still very few tools to be available in SaaS and On-Premise deployment options. Celoxis provides powerful yet flexible project portfolio management, time and expense tracking, resource management, financial tracking and work collaboration. Using Celoxis, businesses can get rid of multiple applications and spreadsheets to manage schedules, resources, budgets, costs, invoices, communication, approvals, risks, issues, change requests and other work items from a single online platform. Celoxis’ comprehensive features address the real-world complexities of managing projects across organizations and functions; it excels at planning, delegation, collaboration, tracking and reporting with great agility and user-friendliness. Celoxis help users plan and manage real-world, diverse project portfolios. It is highly customizable to suit a variety of business needs. Celoxis offers a choice of cloud-based or on-premise deployment. The solution is fully customizable and offers seamless integrations with over 400 business applications. Celoxis is one of the most comprehensive yet very affordable project management software in the marketplace.

"We 'Celoxis-cise' all our projects. Celoxis helps us stay on track and within budget in a very chaotic, fast moving environment.”
Seth Bregman
Senior Director, Business Enterprise Systems, Live Nation

"Celoxis has allowed us to gain project and resource management visibility across the business and improve overall coordination, communication and project execution.”
Katarzyna Wardzala
Operations Coordinator, Betfred

"Celoxis is easy to use, the interface is clean and simple, and having all project and resource information in one location has been an improvement to our business.”
Fuji Xerox

"At Interim HealthCare, we are working smarter, not harder, using Celoxis.”
Craig Heyne
Project Manager, Interim HealthCare
Clarizen is a leader in collaborative work management, bringing together cross-company project management, configurable workflow automation and purposeful collaboration in an enterprise-grade platform. Clarizen unites teams, reduces unnecessary communication, and provides extensive visibility at all levels of the organization, so everyone can work more efficiently, adapt to changes and deliver results.

“We’ve cut through layers of complexity, and the immediate gain has been an increase in productivity around 40%.”
Debbie Collins
PMO Manager, Professional Services, Ricoh

“Before Clarizen, it took four to six hours to create a project roadmap and it was often an outdated, static snapshot in time. But after Clarizen, we can now literally create a roadmap within one to two minutes, and it’s based on accurate and reliable real-time information.”
Aimee Shea
Sr. Manager, PMO, Strategy & Business Operations, Cisco Capital

“Thanks to Clarizen, in the first year, we have saved 417 hours, which equates to a 67% reduction in time that was previously spent performing tactical program management work.”
Gia Chung
Senior Manager, Strategic Programs, NetApp

“The platform and social collaboration functionality enables our project team members to interact in real-time through numerous channels. We have increased project communication by 100%, reduced our average meeting time by 10 minutes, and 30% of our projects are completed in less time.”
Jeff Smargon
Director of Project Management, Alorica
Easy Projects is a cloud-based project management platform ideal for fast-moving teams inside Mid-Sized organizations and enterprises that have outgrown their current project or task management tools.

Easy Projects provides end-to-end work management: every contributing team member, project manager, executive, stakeholder or customer can easily access a user-friendly and personalized collaborative workspace. Easy Projects enables project success: - Never miss another deadline; - Collaboratively initiate, approve, plan and execute projects; - Assign the right resources; - Track progress, monitor spend and costs; - Prioritize tasks and report on results. Easy Projects offers: - Agile, Kanban, Waterfall methodologies that can all be used in unison depending on preference of your teams; - Robust project management to support WBS (unlimited hierarchy), multiple dependencies, critical path management, and portfolio management; - Custom forms and project templates to eliminate unnecessary data entry; - Mobile Apps (Android and iOS) for project planning, tracking and executing on the go; - Optimized resources allocation based on skills and availability thanks to calendar, workload and timeline visibility; - Powerful financial management: project budgets, revenue, costs and expenses; - Integration with popular apps like Microsoft Outlook and Office, Google Calendar, Gmail, Slack, and 700+ others; - Personalized training, on-boarding and implementation support as well as dedicated Success Manager to ensure that your team adopts and uses Easy Projects to its full capacity; - Enterprise-grade security with our cloud hosting or in your own data center; - And much more...

Easy Projects helps you grow and scales with you. Try it today.

“EasyProjects has simplified project management within our marketing department. Our staff is more productive as they are able to focus more on the project and less on the logistics. The ability to post messages and attach files to a project simplifies and expedites the approvals process. We also purchased the source-code package which allowed us to easily...”

Kenneth R. Tarwood
Electronic Marketing Specialist, LATICRETE International, Inc

“Shortly after we implemented Easy Projects, one of our designers was unexpectedly out of the office for a week. After taking a look at his assignments in Easy Projects we were able to reallocate work so nothing fell through the cracks. That is only one example out of many of how Easy Projects has helped our creative production workflow.”

Laura Goldstein
Director of Marketing, Lowes Foods

“When I was first assigned to upgrade our easy project database I was mortified because I had never worked with the database before. But Andy was extremely helpful and walked me through the upgrade process with calm and ease even as I panicked in fear that I would mess something up. Your team is very responsive and has a lot of great resources...”

Steven Garcia
Daughters of Charity Health System

“We have started using EP from past 3-4 months. The product is very useful to manage our IT deliveries tracking to closure. Very easy to understand and work with. Besides, technical support is really commendable. To my knowledge, companies can adapt to this application very easily and get benefited managing deliveries.”

Suswaram Sridhar
CIO, Medi Assist India TPA Pvt. Limited
ABOUT GENIUS PROJECT

Genius Project was founded in 1997 to address a need for project management software. With offices in Europe and North America and supported by a global network of resellers, Genius Project now has over 93,000 end users and over 1,050 customers worldwide.

"With Genius Project everyone can easily enter their timesheet information. We are therefore getting a better understanding of resource constraints, enabling us to become more efficient."

Nathalie Czechowski
Assistant Director, ITS, Coventry University

"Thanks to Genius Project, we now have one tool for managing our project data. This allows us to easily share information with our management team, which has created better visibility and an increased knowledge of our accomplishments within the company."

M. Olivier Hertu
CIO, Loxam Group

"In conclusion, we are very happy with the solution and we particularly appreciate the technical and business know-how from Genius Inside and their expertise in project management best practices."

M. Jean-François Pasquier
IT System Manager, Rémy Cointreau

"Now we have one unique tool that integrates time and project reporting, project planning and resource management. We have improved project visibility and collaboration now that all project leaders have access to the project information."

Ferry Voortman
IT System Manager, Rijk Zwaan
ABOUT HIVE

Hive is a project and process management tool built to help you and your team move faster. The tool is built for efficiency with native email integration, flexible project views like Kanban and Gantt, and over 1,000 integrations.

“Starbucks couldn't roll new stores out so quickly without Hive. We have eliminated miscommunication, saved hours of unnecessary meetings, and achieved full transparency across all our projects.”

Brian Collins
Interior Concepts Design Manager, Starbucks

“With the insights gained through Hive Analytics, we can now make educated and timely business decisions to constantly improve our efficiency.”

Jerem Curry
Global Head of IT, The Economist

“Hive has made it so easy for my team to track our work and I can’t imagine going back to the way we worked before.”

Garth Perry
Assistant Director, Budget Office, The University of Arizona

“Nothing comes close in terms of task management.”

Chad Williams
Chief Executive Officer, Survey Local
ABOUT HUDDLE

Huddle is the leader in cloud collaboration and content management for the enterprise. Huddle is used by more than 100,000 organizations worldwide, including SEGA, AKQA, Unilever, P&G and KIA Motors, to securely manage projects, share files and collaborate with people inside and outside of their business. Huddle can be accessed online, on desktops via Microsoft Office applications, on the move with BlackBerry, iPhone and iPad apps. Huddle is currently available in 15 languages including English, French, German, Italian, Spanish, Portuguese, Russian and Japanese.

“Huddle is integral to what we do and forms a distinct part of our online proposition. This, in turn, has helped us to take a step closer to our strategic vision of a better-connected Commonwealth. It has increased productivity and efficiency within the organization and helped to create a much needed shift towards working online.”

Pukul Rana
Digital Strategy Advisor, Commonwealth Secretariat

“Huddle is inspiring a new, more effective way of working across Ofsted and helping us to deliver on our digital transformation agenda.”

Tom Zebedee
Deputy Director Technology, Ofsted

“For us, Huddle has just been a revelation. Simply put, what was a complicated process has been made a lot more straightforward. It is very easy to use and as such I can personally see a number of different ways in which it can be applied across the different aspects of our business to the benefit of our organization, as well as the customers we..."

Kevin Goodman
Head of Business Excellence, Go-Ahead

“Huddle did a great job in meeting our user requirements. With its easy set-up, excellent interactive training and superb file management, Huddle continues to provide an essential means of communication and has proved to be an invaluable tool and a huge support for the Met Office and international collaboration.”

Michaela Drummond
Senior IT Practitioner, The Met Office
ABOUT INLOOX

InLoox stands for professional business applications, integrated into Microsoft Outlook and Microsoft Exchange Server®, that both simplify and accelerate business processes. Flagship product of InLoox is the project management software InLoox PM, which currently has more than 50,000 users worldwide. Many blue-chip corporations trust InLoox.

“"The software is really easy to integrate in our existing IT infrastructure. We are fully aware that at the moment, we are only using a fraction of the software’s potency. However, acceptance among our staff is so good that we will integrate InLoox PM 8 for Outlook throughout the company, continuing to learn as we adopt the software.”

Josef Dusini
Head of Contract Management, TechnoAlpin

“InLoox is a great product that is fully integrated in Outlook and fits in seamlessly with day-to-day work. Behind the product is an expert sales and support team, who are always ready to help whenever you need them – this provides additional value to an already exceptional product.”

Santosh Pursad
Avis

“I had a look at InLoox and I think the various implemented concepts are really great. You just know that the people who developed this had solid project management knowledge.”

Michael Enggist
Consultant, Agio

“We’re turning into real InLoox power users. I’m 100% convinced of the tool, even though I feel as if I’m only making use of about half of its possibilities.”

Laurent Brückner
Chief Executive Officer, Brückner Architekten
ABOUT INMOTIONNOW

inMotionNow is a leading provider of workflow management solutions for marketing and creative teams, facilitating efficiency and productivity from project kickoff to final approval. inMotion, the company’s flagship SaaS product, simplifies every phase of the creative production process, delivering measurable value to enterprise clients like DuPont, the LA Dodgers, NASDAQ, and Pep Boys. The application allows project stakeholders to manage, track, and collaboratively review their print, video, and interactive projects in a centralized online environment. With a user-friendly interface and dedicated customer success team, inMotionNow helps creative and marketing teams of every variety automate their workflow and do the work they love.

“IT used to take 2-3 weeks to route items throughout the team. Now we're down to 2-3 days. This is a HUGE goal that we've achieved.”
Jamie Orndorff
Project Manager, Edward Marc Brands

“inMotion is a cost effective tool that helps organize workflow and track our progress to help ensure we hit our tight deadlines.”
Melissa Mansfield
Senior Graphic Designer, Prestone

“We were also really impressed with the customer service of inMotion. Many of our suggestions for enhancements have been incorporated into recent builds. It's great to see a company take their customers’ feedback as opportunities for improvement.”
Trish Olives
Creative Services Manager, YETI

“The biggest impact inMotion has had on our team is the ability to see in real-time where the proof is and being able to review everyone’s feedback in a real-time, live, web-based system.”
Jim Etherson
Creative Services Project Manager, Hershey Entertainment

ABOUT JIRA SOFTWARE

Jira Software is the project management tool for agile teams. Jira Software is built for every member of your software team to plan, track, and release great software.

"What Atlassian is offering us with their tools and their ecosystem is a full enterprise solution. Anything you need, any features you need, you can do with Atlassian."  
George Lewe  
Manager of Central Applications and Tools, Lufthansa Systems

"Wherever we are in the world, whatever the time zone or the schedule, Atlassian tools allow us to stay connected."  
Eric Canamas  
Head of Architecture, Amadeus Hospitality

"JIRA has been great for us because it’s been so flexible and it adapts to all our different workflows and processes across the company."  
Justin Riservato  
Director of Program Management, Gilt Groupe

"With Atlassian, blubolt can quickly respond to customer needs, strengthening those relationships."  
Mateusz Drankowski  
DevOps Engineer, Blubolt
ABOUT LIQUIDPLANNER

LiquidPlanner is predictive project management technology for modern business. LiquidPlanner award-winning, patent-pending project management and scheduling technology enables more than 2,000 midmarket and enterprise technology, IT and development teams to plan, track, collaborate and analyze hundreds of projects in real-time. LiquidPlanner is privately held and headquartered in Seattle, Washington.

"LiquidPlanner is an invaluable tool for managing limited resources against the changing requirements of our many development projects. I now have much more insight into the reality of the entire project process, allowing me to address trouble spots and move to the next element of the project more quickly."

John Haprian
Vice President of Development and Operations, Monarch Teaching Technologies

"We didn’t anticipate the impact and the value that the collaboration driven by LiquidPlanner would foster. This deeper, cross-team visibility has helped us be much more effective as a project team."

Jim Burger
Director of Information Systems, Taghleef Industries

"With the whole search process in LiquidPlanner, everyone could see who was contributing to their projects at every stage. The streamlined communications immediately saved time for our employees."

Robert Winger
Director of Enrollment Technology, University of Dayton

"I don’t know any other project management tool that has dynamic scheduling. As a project manager trying to manage multiple projects, it’s awesome to change one thing on the schedule and then see how it plays out with other projects. It really forces you to prioritize things correctly."

Lisa Statland
Project Manager, Beeline

ABOUT MAVENLINK

Mavenlink is a modern software platform for professional and marketing services organizations. It is the only solution that helps services firms establish an operational system of record that facilitates their business lifecycle, including key capabilities like resource management, project management, collaboration, project accounting, and BI Services. Organizations in more than 100 countries are improving operational execution, increasing agility, and driving improved financial performance with Mavenlink.

“The Mavenlink Salesforce integration is fantastic; what comes out of the box is really valuable and very easy to use.”
Tom Kolich
Senior Director of Technical and Data Services, AgilOne

“For me, it's all about margins. After adopting Mavenlink, we witnessed at least a 50% improvement in margins. And even that would be a conservative percentage.”
Amir Deihimi
President and CEO, Core Structure Inc.

“Mavenlink is the uncomplicated way to drive better results and achieve a halo of trust with our customers. It brings them in as a part of the team and creates momentum. In the end, our customers feel we are being more transparent.”
Haider Alleg
Managing Director, Kainjoo Consulting Group

“What excites us about Mavenlink is the ability to have a world-class project management platform that elevates the quality for our client work and company mission—to skillfully, efficiently and objectively create solutions that power the work of the public professional in order to advance the lives of the citizens they serve.”
Trey Traviesa
Chief Executive Officer, MGT Consulting
Microsoft Project helps you get started quickly and execute projects with ease. Built-in templates, familiar scheduling tools, and access across devices increase productivity for project managers and teams. It is available on Windows, iOS®, and Android™ devices, so team members can update tasks on their device of choice and view timelines and reports on the go.

“With Project Online, we are using best practices that we didn’t before. For example, we have better continuity of knowledge now with project information in one central and accessible place. Now it’s easier to share information with another team member.”

Karim Osorio  
Research Engineer, Arauco

“Today with Microsoft Project, the data we get is far more accurate than it was before when we were producing it manually. We always have access to the current project status and don’t have to wait until the end of the month to get that information.”

Sari Hilden  
Head of Global Quality, Comptel

“We have a better overview of project timelines and resource allocation. With Project Online, we can see exactly how employees are already resourced and how much time they will need to finish their current project.”

Roy Op ten Berg  
Process Operations Leader, Hyster-Yale

“With Microsoft Project Online, we’ve been able to match IT workload with resources available. consolidate all of our project management data into one system, which has lead to efficiency gains, provided greater visibility of project status, and enabled us to really drill into the quality of the project management.”

Dan Butcher  
Corporate Portfolio Manager, South Australia Power Network (SAPN)
ABOUT MONDAY.COM

monday.com is a tool that transforms the way teams work together. Their mission is to help teams build a culture of transparency, empowering everyone to achieve more and be happier at work. They're obsessed with building an excellent product, and their goal is to create a tool that people will love to use—one that's fast, beautiful, responsive, and makes your life easier. The only thing they love more than their product is their customers. The incredible teams that use their product are the most important thing to them, and they're here to provide support to them 24/7.

“One important change that has happened since we started using monday.com is that people actually enjoy updating their tasks. They're addicted to getting through sprints and turning everything green. In a matter of minutes I know exactly what the status is of every project in the company. My day to day is easier because I use monday.com.”

Ishay Green
Founder, CTO and R&D; Manager, Spot.IM

“monday.com has shortened the life cycle for our clients. Before monday.com, if we had an unresponsive client, it took us about a month to realize it and reach back out. With monday.com, we instantly see what we need from each client and we're able to remain very proactive.”

Hope Horner
CEO and Founder, Lemonlight Media

“We have better ideas and finish things faster because people care more. There's so much more transparency in the projects now, which means planning is more dynamic. This lets us move faster and get better results.”

Emilia Nilsson
Parter & Search Strategist, Raw Digital

“monday.com lets us make sense out of the cluttered world of an agile organization. It gives us the big picture of everything we're doing and allows us to connect our small sprints to the greater story of what we're trying to achieve.”

Amit Elisha
VP Product, Outbrain
ABOUT PAYMO

Paymo - Project Management, Time Tracking & Invoicing. In the past years they've noticed a strong move among businesses to cloud services and the great advantages they bring. However as this move is happening at an accelerated pace they've also noticed a couple of new problems that businesses face daily. Nowadays small businesses end up using a suite of specialized online apps that usually don't talk to each-other or, if they do, they do it poorly. This is one of the main problems Paymo addresses: to ensure your projects move forward.

"Paymo helps me manage my life in so many different ways. Time management and staying on track are important when you are billing by the hour. With the widget and Paymo plus I am able to know exactly what I have done for each client at any time."

Brett Burky
Radically Ambitious

"Favorite feature is the clear timer on the left-hand side. Allows me to quickly jump between projects and make notes without having to hunt down each individual project; the navigation is also very simple."

Sean Glendinning
Fitness Management

"As a small business owner, I use Paymo to help me manage my time for each of my clients and their projects. I can also easily send invoices, which allow clients to pay online, and that’s both convenient and efficient."

Marisa Peacock
Strategic Peacock

"As a freelance graphic designer, I have really enjoyed using Paymo. When I first found this app, I was looking for a way to track the time I was spending on individual projects, but Paymo has provided so much more than that."

Anthony D. Kapp
ADK Creative
ABOUT PROJECTMANAGER.COM

ProjectManager.com delivers the most comprehensive dashboard and reporting tools in the industry. It includes all of the most-used features from Microsoft Project. Create and share detailed plans, tasks, expenses and more with colleagues globally. ProjectManager.com started out in 2008 with the goal of helping Project managers find out whether their projects are on track. Within just 12 months of going live, NASA and the United Nations were using its service and now more than 12,000 managers and teams in 101 countries use it daily.

“The benefits of using ProjectManager.com is that it brings out team together. We have project managers from California to New Jersey to Dallas. Every project manager is using ProjectManager.com.”

Fernando Meija
Project Manager, Getinge Group

“It’s an all encompassing PPM tool. It’s really improved our estimating, as we can record and reuse task data on our projects.”

Andrew Chedzoy
Regional Services Director, Kantar IT Partnership, Kantar

“We use ProjectManager.com to manage a large variety of projects. It’s robust, has fantastic features, is easy to use, reliable and available all the time. It exceeds our expectations.”

Brett Harnett
Associate Director, UC Health

“By implementing ProjectManager, we’re better managing our resources. Having the ability to review resource availability easily across all projects, helps us determine which projects can be implemented and by when.”

Melissa Coleman
US Government Department, City of Fayetteville, City of Fayetteville
ABOUT PROOFHUB

ProofHub lets you stay in ultimate control of your projects, remote teams and clients even when you are on the go. It is a saas based project management software that fits perfectly in every work culture. It solves the four major challenges that every team faces in their projects - Planning, Collaboration, Organization and Delivering them on time.

"Great product and great service! We are new to ProofHub and loving it. The team is always very helpful and gets back to us quickly whenever we have questions. Thanks for the great product and service!"

Naz Tadjbakhsh
Taco Bell

"ProofHub provides a proven process for management of offshore development projects, that significantly improves the chances that the projects will be completed within deadlines."

Bård Andre Bruvoll
Kommunikator

"ProofHub has unified all our communications, brought our internal teams together and made everyone accountable for their time in order to work smarter."

Matt Cooper
Inside Online

"ProofHub optimized our client happiness and eliminated all the fuzziness and problems that could happen with email project management."

Valtancoli Fabrice
Founder, Webdesign-inspiration
ABOUT PROWORKFLOW

ProWorkflow is an online project management software that enables you to keep accurate time-keeping records, organize, plan, and delegate jobs and tasks whilst using the timeline to have an overview of company activity.

"People use ProWorkflow because it’s, hands down, the BEST project management tool available today. Keep up the great work!"
Boondock Walker

"After almost going down the costly bespoke software route we found ProWorkflow, and what a find! A Service that not only does its job, but does it spectacularly. With the apparent obsessive desire to produce and support the best software on the market, credit has to be give to the people at ProWorkflow for a brilliant solution."
Craig Bradshaw
First In Retail

"Your company has an INCREDIBLE response time to customer inquiries, plus your e-mail support was easy to find making me even more confident in my decision to go with ProWorkflow! Thanks again!"
Click Depot
Sciforma is one of the largest providers of Portfolio & Project Management software, delivering solutions to more than a quarter million users worldwide since 1982. The company offers flexible and easy-to-use multi-platform project management and project portfolio management software solutions. Businesses that have multiple projects from multiple clients (including internal customers) need to be able to prioritize efforts that will bring the best results to the company. The configurable Sciforma PPM solution provides project managers and executives the ability to analyze investments, plan capacity, manage risks, and control expenses better.

“We looked at 3 different systems and what lead to the decision to go with Sciforma was that it had the features we were looking for and the pricing was quite reasonable. One of the things I really liked about it was the tokens that allowed us to get the best value out of the investment we made.”

Olli Maltikainen
Engineering Manager, Joyglobal

“We chose Sciforma as it provided us with insight into all of our projects, including budget, project evaluation and execution, real-time tracking and reports. This has helped us improve our productivity and initiate innovative solutions.”

Maxime Laroche
Project Portfolio Advisor, Societe de Transport de Montreal

“I think it is safe to say the application has exceeded our expectations. We are definitely getting all the benefits we were hoping to get with a potential for more. Accountability has increased as well as the level of detail (both in planning and time recording) which leads to more effort being expended on planning.”

Adam Walker
Project Manager, UMB Brand

“We are very happy about the support we have received so far. The Sciforma team knows our business and the biggest thing is that the team is able to advise us about our processes. Sciforma’s team is very informative and knowledgeable.”

Bret Hutchings
IT Applications/ERP Analyst, Incitec Pivot Limited
ABOUT SCORO

Scoro is an end-to-end business management solution that allows professional and creative services to control their entire workflow from one place. It helps to streamline work and eliminate routine tasks to ensure a business runs as smoothly and efficiently as possible from sales right through to billing.

"We spent a long time looking at different solutions but chose Scoro because it offered everything we needed at a cost-effective price."

Bill Page
Zest Communications

"Scoro provides Vivid Agency with an overview of our business and gives us instant access to the detail of client contacts and projects. The interface is refined, flexible and great to work with – helping us to work in a more productive and efficient way."

John Chipperfield
Creative Director, Vivid Agency

"The greatest benefit of Scoro is the visualized dashboard. It takes only a few clicks to see exactly what you need in detail."

Roman Zahharov
Lean Enterprise Estonia

"Scoro has effectively ‘joined up’ all the aspects of our business customers, projects, estimates, and invoices. We’ve done away with spreadsheets."

Lisa Avanell
Forensic Access
ABOUT SMARTEESHEET

Smartsheet, a leading Software as a Service (SaaS) company, offers an enterprise-ready cloud app for project management and collaboration. The award-winning tool is trusted by more than 40,000 businesses and 2 million users in over 160 countries. Regarded for its online project management, collaboration, and file sharing features, Smartsheet’s intuitive spreadsheet-like app is used broadly to track and manage diverse types of work including: team projects and task lists, customer information, sales pipelines, event schedules, and business processes.

“Smartsheet has eliminated the painstaking process of managing details in Excel. Our operational efficiencies and increased customer confidence have ultimately won us more business!”

Kristin Komassa
Team Coordinator, Colliers International

“At the beginning of each project, we share our schedule with the customer. It’s an instant credibility boost. Smartsheet gives us a competitive advantage, and proves we’re capable and organized. It has quickly become the heartbeat of how we do business.”

Malcolm McCardle
Senior Project Manager, ITW

“With Smartsheet as our collaboration hub, we’ve streamlined processes, reduced the time to market by 50 percent, and created an environment of shared responsibility that has truly enabled our teams to make better decisions.”

Brad Martin
Chief Quality Officer, Extreme Networks

“Smartsheet is not only teaching my students the basics of project management, it is helping to teach them how to work through the challenges of group collaboration in a professional manner. They’re learning a better way to project plan with accountability, visibility, and clear expectations for everyone.”

Katherine Robberson
Instructor, Southern Illinois University Edwardsville
ABOUT TEAMWORK

Teamwork.com offers a suite of online productivity software which guarantees to maximize team performance. Comprised of Teamwork Projects, Teamwork Desk and Teamwork Chat, each platform offers a way to streamline your team’s processes and empowers your people to realize their unified potential and achieve true business success. Teamwork Projects is a feature rich productivity and collaboration platform that lends itself to multiple applications, most notably the project management eco system. Teamwork Projects helps teams work better together, closes communications gaps and aligns business processes leading to a drastic increase in team performance.

"I needed a uniform way of communicating with clients and recording their requirements, comments, observations and even change requests. Of all the products I evaluated, Teamwork Projects proved to be the fastest, simplest, and most cost-effective one."

Sotiris Filippidis
Founder, DotSee

"Teamwork Projects has dramatically increased our internal efficiency, and I’m happy to say that this has resulted in a much more accurate quoting process and ultimately, more profits."

Patrick Sullivan
Chief Executive Officer, Administration, Page One Web Solutions

"After trying many collaborative project tools, we’ve definitely chosen Teamwork Projects for its ease of use and all functionalities offered."

Laurent Lourenco
Chief Information Officer & Program Director, Findus

"Teamwork Projects has given us a much more cohesive vehicle for communication and information sharing. Having all of the elements for a project encapsulated in one place has proven invaluable."

Stephanie Deits
Director of Accounting and Corporate Operations, Idea Planet
ABOUT WORKFRONT

Workfront is the first modern work management application that connects enterprise work, collaboration, and digital content into an Operational System of Record (OSR). Workfront has helped thousands of companies successfully transform their businesses into more modern enterprises that increase revenue, improve customer experiences, and eliminate cost, including Cars.com, Cisco Systems, Comcast, iProspect, Schneider Electric, and Trek.

“Our processes are probably 75% better. Workfront is the easiest way to organize and manage projects with an unbelievably low number of resources. The scalability is fantastic. The organization the Workfront solution allows is incredible.”

Adam Messano
Senior Project Manager, Resource and Infrastructure Optimization, Advance Auto Parts

“We have a crazy amount of work, and AtTask keeps up with us. It works as fast as we do. And being able to have my hard numbers has been so useful, especially in the larger scope of the business of Live Nation and House of Blues.”

Erin Frey
Creative Director, House of Blues

“We were spending north of a million dollars a year with a support vendor before we began tracking time and activities in the Workfront platform. After calculating actual approved hours, we were able to cut our costs in half.”

Rodney Henson
Director of Salesforce.com Strategy, MetLife

“In Workfront, building a plan can be done easily and quickly without expertise in project management. That is a huge benefit as the tool offers intuitive views accessible to a large variety of non-technical individuals.”

Fabrice Joachim
Global PMO, L’Occitane
ABOUT WRIKE
Wrike makes managing multiple projects and cross-functional, distributed, or growing teams easier. Their end-to-end solution takes your projects from the initial request stage all the way to tracking work progress and reporting results. Manage your projects from creating and delegating tasks, to visualizing plans and organizing workflows, and more. You’ll get project collaboration features you love, alongside the analytics and security you require. Perfect for teams of 20+ people.

“Wrike illustrates the value that we provide to our clients. They get to see every little thing that we put into their campaign. Now, we have a complete and clear list of everything we have done to achieve results for a client.”
Matt Bitzer
CEO and Co-Owner, Blue Magnet Interactive

“Our team members have reported that they feel less overwhelmed when they use Wrike, because they’re able to release all of the ideas floating around in the backs of their minds, freeing them up to be more creative.”
Joe Moran
Chief Creative Officer, True Colors Fund

“With Wrike, we have increased the number of tasks done without expanding our team of five people. We are able to easily manage the content in 13 languages and keep track of all important updates in one workspace.”
Veeam

“If you can find a tool that allows you to focus on your work and your relationship rather than the technology itself, it’s really helpful and for us, Wrike does that.”
Spencer Kehe
Executive Producer and Partner, Only Ch1ld
ABOUT ZOHO PROJECTS

Zoho Projects is an online project management software that helps you run your business with ease. It stands as a comprehensive solution to your day-to-day problems in project management and adds value to your business by leaps and bounds.

“Zoho Projects is a great tool I've found to be extremely easy to use and highly cost-effective. The features of this online management software enable my employees to be more efficient by keeping communication, project to-dos and files in one central location. Great product!”

William Craig
President, WebpageFX

“Zoho has given my students invaluable employability skills that will put them ahead of the game when they actually go out and look for work”

Annette Chapman
Music Teacher, Edinburgh College

“Your product offers TONS more features than other platforms out there and works FANTASTIC!”

Mark Wasem
Chief Executive Officer, H.I.M. ON CALL

“Zoho Projects has been an excellent online project collaboration tool and Zoho is by far my favourite as it is feature rich and easy to use. Well done on an excellent product!”

Stuart Jeffrey
eCommerce Project Manager, Ingram Micro Europe
